

Goulbourn / Campaspe Link Project – FRH / Coliban Water

Date

February 2007 to January 2008

Location

Victoria

Project Value

\$35M

Project Description

The Goulbourn Campaspe Link Pipeline Project awarded by Coliban Water to FRH to provide greater water security for Coliban system customers. The new pipeline conveys water from the Goulbourn system to the Campaspe system via a pipeline from the Waranga Western Channel near Colbinabbin to the Coliban system near Lake Eppalock.

The Coliban system storages were at their lowest level on record. In September of that year customers or users of water in the area moved to the region's harshest ever restrictions – Stage 4 which includes a ban on all watering. In response to the ongoing dry conditions JAYDO as the principle Pipeline Contractor to FRH and GHD as the design consultant were awarded the project.

JAYDO was initially awarded 10 kilometres of 1127mm OD MSCL pipeline, due to exceptional performance with pipeline installation rates exceeding 500 metres in a shift we were awarded further works totalling 28 kilometres out of the 54 kilometre Goulbourn Campaspe Pipeline Project.

JAYDO's exceptional production rates played a pivotal role to ensuring the overall pipeline was completed within the tight timeframe.

Stakeholder Satisfaction & Ongoing Commitment

Consultation with Landowners and construction crews where vital to avoid potential significant native vegetation areas covering much of the alignment. Discussions with landowners along the preferred alignment secured the most appropriate alignment enabling efficiencies during more detailed assessments on private land.

This is another occasion where our commitment to asking, and seeking the best solutions to constructability questions during design phases pays off.

An Ongoing Partnership

This Project undertaken in the past has lead to the creation of the Pipelines Alliance currently undertaking a 5-year program of works for Melbourne Water and is testament to our commitment for all our projects, clients and stakeholders.
